

“As is always the case, we are completely happy with the service we’ve received from TransWorldCom since our initial engagement. The service desk is always polite, helpful and ensure that our requests are dealt with smoothly and quickly.

Bluelight Global Solutions Ltd has been a customer of TransWorldCom for many years and while customer loyalty is not always a guarantee of good service, the customer service received from the service desk has secured our custom over this time. TransWorldCom should be very proud of their service team.”
